THE OPPORTUNITY

A city block, built in two bites

3331 Trumbull is a full city block in North Corktown, master-planned by 4545 Architecture: five buildings around a private parking court with 248 feet of frontage where Trumbull meets Sycamore and Ash. All 25 homes get an attached garage and a private rooftop deck with skyline views.

Permitting completed June 2026. Rather than build all 25 at once, the project runs in two phases — 13 homes, then 12 — so Phase 1 proceeds fund Phase 2 and investor principal returns off the first closings.

THE PLAN

Thirteen homes first. Then twelve.

Phasing cuts the capital at risk roughly in half, proves absorption before the second half breaks ground, and lets Phase 1 closings do two jobs at once — return investor principal and fund Phase 2.

PHASE 1

13 homes

Buildings 1–3

- Funded by a First Merchants construction loan — secured at 6% — alongside the $700,000 investor note tranche
- Seven $100,000 secured notes — the full raise, and the only raise
- Pre-sales launch during construction; closings begin as buildings deliver

PHASE 2

12 homes

Buildings 4–5

- Funded from Phase 1 closing proceeds — no second investor raise
- Breaks ground while Phase 1 is still closing out
- Completes the block and the $10.76M projected sellout

8 of 13

PHASE 1 CLOSINGS RETURN INVESTOR PRINCIPAL IN FULL

Eight closings throw off roughly $3.4M of gross sale proceeds and $855,204 of cumulative net profit against $700,000 of principal — 1.22× coverage measured on profit alone, after the construction lender is fully repaid on those units. The remaining five Phase 1 homes and all of Phase 2 close free of the note.

This is a debt investment, not equity — you are lending to the borrower under a secured promissory note. Interest is a fixed contractual obligation, not a projection and not a share of profits; there is no upside beyond the stated rate. Seven $100,000 notes, accredited investors only.

FINISHES & UPGRADE REVENUE

Granite and quartz tops, engineered wood and tile floors, full-glass shower enclosures, Andersen windows, smart thermostats. Launch pricing produces a $10.6M sellout before upgrades; the proforma carries a $125,000 upgrade-revenue allowance on top.

MARKET EVIDENCE

Priced $30–50/sf under closed comps

These are recorded closings from the same submarket, the same architect, and the same builder — not projections. 3331 Trumbull launches below every one of them.

Proof, delivered	**Permitting complete**	**Phase 1 capital close**	**Phase 1 build**	**Phase 1 closings**	**Phase 2 build**	**Sellout**
Cochrane 11, Harrison 12, and Sycamore Park built and sold out within blocks of the site.	Architecture, structure, and MEP documented by 4545 Architecture. Land owned since 2022.	$700,000 of secured notes closes alongside the First Merchants construction loan.	13 homes across Buildings 1–3. Pre-sales launch during the build.	Homes deliver and close in sequence. Investor principal returns in full at the eighth closing.	12 homes across Buildings 4–5, funded from Phase 1 proceeds — no second raise.	Phase 2 closes out the block against a $10.76M projected sellout.

Why the raise is capped: the raise is $700,000 — seven $100,000 secured notes to a small group of accredited investors — closing alongside the First Merchants construction loan to fund Phase 1. Phase 2 requires no additional raise.
